OBJECTIVE

Aspiring software developer seeking an entry-level role to leverage strong skills in Java, front-end development (HTML/CSS), and problem-solving through DSA to contribute to innovative and scalable tech solutions. where I can learn new skills and apply my skills, expand my knowledge and use my knowledge to contribute to innovative projects and grow professionally.

EDUCATION

Bachelor of Technology: Mother Theresa Institute of Engineering and Technology, Palamaner   2021 - 2025
Branch: Computer Science and Engineering
Percentage: 70%

Intermediate: Mother Theresa Junior College, Palamaner   2019 - 2021
Percentage: 67%

SSC: Z P High School, Theertham   2018 - 2019
Percentage: 84%

TECHNICAL SKILLS

Languages: Java, HTML, CSS, MySQL
Tools & Platforms: Git, GitHub, Eclipse, MS Office

PROJECTS

EXPENSE TRACKER SYSTEM

Developed a console-based Java application that helps users efficiently manage and track their personal financial activities by allowing them to input expenses, categorize them (e.g., Food, Transportation, Utilities), and generate real-time monthly summaries. The system offers budget allocation features for each category, providing alerts and insights to promote better financial habits and awareness.

AWERNESS ON CHILD TRAFFICKING - Awareness Website Development

Developed an informative and user-friendly website aimed at spreading awareness about child trafficking and educating children, parents, and communities on preventive measures. The website features key information about the risks, signs, and safety tips related to trafficking, along with self-defense resources and emergency contact details. Played a key role in designing, developing, and deploying the website using modern web technologies to ensure accessibility and engagement.

INTERNSHIP

Elewayte— Full Stack Java Developer   Dec 2024 – Apr 2025

I completed a Full Stack Java Developer internship at Elewayte, where I worked on real-time web development projects using technologies such as Java, MySQL, and React.js. During the internship, I was actively involved in designing and developing both the front-end and back-end of web applications. I implemented responsive user interfaces, managed database operations, and integrated APIs to enhance functionality.
